EDUCATION

B.Sc. in Information Technology
Bahir Dar University – Bahir Dar
Institute of Technology
2015 – 2018 E.C | GPA 3.6

SKILLS

- JavaScript & PHP
- React & Angular
- Node.js & Express.js
- MySQL & MongoDB
- HTML & CSS
- Java & Python
- Flutter & Firebase
- System Design & Networking
- Teamwork & Communication
- AI Integration
- LLM Integration
- AI API Integration

LANGUAGES

Amharic — Excellent
English — Excellent

PROFESSIONAL SUMMARY

Motivated and detail-oriented final-year Information Technology graduate with hands-on experience building full-stack web and mobile applications. Skilled in modern JavaScript frameworks, database design, and agile teamwork, with a strong foundation in problem-solving gained through academic projects and an internship at the Amhara Innovation and Technology Bureau.

EXPERIENCE

Intern — Amhara Innovation and Technology Bureau Sep 2025

Amhara Innovation and Technology Bureau – Bahir Dar, Ethiopia
Participated in system design and development activities within a collaborative team environment, contributing to real-world problem-solving tasks under the guidance of supervisors and mentors. Assisted in testing, debugging, and documentation of software applications, helping ensure reliability and quality before deployment.

PROJECTS

Honey Shop E-Commerce Website

Developed a full-stack e-commerce website for selling honey products, featuring product management, customer registration, a shopping cart, and order processing. Designed and integrated a MySQL database and built backend functionality in PHP to manage core website operations.

Distance Education Management System

Built a web-based platform to organize distance education activities, with responsive interfaces for managing students, courses, and educational information. Integrated Firebase for real-time data storage and implemented dynamic JavaScript features to improve interactivity.

Pharmacy Medicine Management System

Developed a mobile application to manage pharmacy medicine inventory and daily operations, including medicine tracking and stock management. Integrated Firebase services for data synchronization and designed a simple, user-friendly interface for pharmacy staff.

Lottery Application

Created an interactive lottery application with real-time data management, supporting participant registration and result handling, using Firebase to securely store and manage application data.

CERTIFICATIONS & ACHIEVEMENTS

BDU AI Hackathon Certificate of Participation

Collaborated with a team to design, develop, and present an innovative technology solution within a limited timeframe, strengthening problem-solving, teamwork, and rapid prototyping skills.
